(m. fritz, j. baldridge, d. fritz, o. thornton)

All the time in the world

Freely express yourself

Kids will be kids

Live and let live

-CHORUS-

Black ice, pretend it's not there

Black ice, yeah

'Cause you don't believe it's there

Don't mean it's not there

It's there

Saving grace

Living by the golden rule

No church thanks

God, cool by me, yeah

Take a look at yourself

Crashing down

Can't salt of earth

Melt Ice of the world

(repeat CHORUS)

Holy men and governments

Even churches can corrupt

Only Jesus saves
