(m. fritz, d. fritz)  
It's right out there  
Shining in the air  
It's almost beyond our grasp  
I'm afraid if we wait  
We won't be able to get it back  
'Cause where there's life, there's hope  
Where there's hope, there's got to be some innocence  
Some innocence, some innocence  
-CHORUS-  
You see the truth  
It's there, but do we really want it anymore  
There's no black  
There's no white  
There's no pro  
There's no choice  
The truth is truth  
The truth is truth  
If you looked inside  
Do you think you'd find any love  
Or is it too late  
To dream about peace, to dream about purpose  
'Cause where there's life, there's hope  
Where there's hope, there's got to be some innocence  
Some innocence, some innocence  
(repeat CHORUS)
