i'm so sorry i left you virginia  
i'm so sorry i left you my love  
crying there in the rain  
just saying my name i was in a rush  
and i'm asking forgiveness virginia  
and i'm not ashamed to ask please  
oh for so many days i missed you're pretty face you're  
what i need  
im a changed man here i am

here i am can you find me within you somewhere within  
you virginia  
here i am do you know how i missed ya how i longed to  
kiss ya virginia  
and me without you is more than i can stand here i am

was a long long journey to get here ain't it funny how  
the truth it comes out on the streets of sante fe the  
wind blew your mind out loud  
so i heard it back here i am

here i am with arms wide open came all this way home  
back virginia here i am down on my knees oh please  
believe me virginia my heart it cries just for the chance  
here i am

here i am (3x) take my hand

im so sorry i left you virginia im so sorry i left you my  
love  
here i am can you find me within you somewhere within  
you virginia here i am down oh you plz believe virginia  
my heart it cries  
just for the chance me without you is more than i can  
stand  
here i am (3x)
