Yeah, baby, go ahead treat me like I'm putty in your hands
Mold me and shape me till I'm your kind of man
Keep making changes, baby, till you like what you see
Don't give up - keep working on me

You know I've done a lotta things that I ain't proud of
Then I beg you for forgiveness - for your mercy and your love
'Til I turn into the man that you want me to be
Don't give up - keep working on me... c'mon now

Keep working - working on me
Keep working it, baby, till you get what you see
Don't give up - keep working on me... here we go, now

Yeah, I knew it when I met you that I'd never be the same
Now I'm ready and I'm willing and I know I can change
So, here I am, baby, yeah, I'm down on my knees
Don't give up - keep working on me... yeah

Yeah, do a little bit of this - do a little bit of that
Keep working on me, baby, till you're loving what you got

Keep working - working on me
Keep working - working, yeah

Keep working - working on me
A-keep a working it, baby
Till you like what you see
Don't give up keep working on me - hey, hey

Keep working - working on me
Keep a-working it, baby - until you like what you see
Don't give up keep working on me... yeah - hey
