"That Kind Of Lonely"

Sittin in a hotel
All by myself
Me and my six string
No one else
Strumming to the rhythm
Of the rain outside
Feeling like Memphis
The night Elvis died
Have you ever been that kind of lonely
Have you ever felt that kind of sad
Have you ever missed somebody that kinda bad
Have you ever been that kind of lonely
I have.
I took a walk out in the pouring rain thinking that it just
might help to ease the pain
But those delta blues they got a hold of my soul.
Got me thinking bout a woman that I can't let go
Have you ever been that kinda lonely
Have you ever felt that kinda sad?
Have you ever missed somebody that kinda bad
Have you ever been that kinda lonely
I have.
Have you ever heard the sound of your own heart
breaking
Have you ever cried yourself to sleep. Tell me. Tell me.
Have you ever been that kind of lonely
Have you ever been that kind of lonely.
