A taste of earth and blackened breaths.  
Our oxygen is running out.  
It's been years wrapped in flesh  
barely living underground.  
An avalanche of scarlet death  
consuming everything we knew.  
For you I'd go to hell and back.  
There's nothing that I wouldn't do.

In your touch salvation lies.  
Your body bending pinhole light.  
So take my hand as we rise  
from the ashes of tonight.  
Escape is ours if we believe  
our love transcends the doom.  
And just like that our hand breaks free  
from the confines of the earth.  
(into daylight)  
Cast away your doubts and fears  
this golden thread will mend your heart.  
In brilliant light we'll spend our years.  
They can never tear us apart.  
Feel the light upon your face  
as we draw closer to the sun.  
We'll live our lives in it's warm embrace.  
Forever has just begun.

Cast away your doubts and fears  
this golden thread will mend your heart.  
in this brilliant light, we'll spend our years.  
They can never tear us apart.  
Feel the light upon your face  
as we draw closer to the sun.  
We'll live our lives in it's warm embrace  
forever has just begun.

Cast away your doubts and fears  
this golden thread will mend your heart.  
in this brilliant light, we'll spend our years.  
They can never tear us apart.  
Feel the light upon your face

as we draw closer to the sun.  
We'll live our lives in it's warm embrace  
forever has just begun.

Cast away your doubts and fears  
this golden thread will mend your heart.  
in this brilliant light, we'll spend our years.  
They can never tear us apart.  
Feel the light upon your face  
as we draw closer to the sun.  
We'll live our lives in it's warm embrace  
forever has just begun.

(sounds like a heart monitor gone flat at the end)
