"Eve Of Destruction"

Visit "[Eve Of Destruction](#)" on MotoLyrics.com

Eastern world it is exploding
Violent flares and bullets loading
You're old enough to kill but not for voting
You don't believe in war but what's that gun your
toting?

And even the Jordan river has bodies floating
And you tell me over and over and over again my
friend
You don't believe were on the eve of destruction
Well look at all the hate there is in Red China

Take a look around at Selma Alabama
You may leave here for four days in space
When you return it's that same old place
Love your next door neighbor but don't forget to say
grace

And you tell me over and over and over again my
friend
You don't believe were on the eve of destruction
You don't believe were on the eve of destruction
You don't believe were on the eve of destruction
