"So Alone"

Well I'll just tell you what you wanna hear
I won't break you're girl is fear
I tried to get close, couldn't get near
If I tell you too much, baby, I'll get smear

Said red light, green light
You never stop
Always trying, wore me out
Now I know what you're bopping about

Well I'll just tell you what you wanna hear
If I tell you too much, baby, I'll get smear

Seems every time I try to love somebody
It's that same old story
I try so hard, gave it everything I got
When in the end I'm the one who's left out

I'm so all alone
