(That's when it hurts the most)

I can't erase the mem'ry of the night you said goodbye  
And when I pass you on the street I want to cry  
But when I see you out with somebody new  
That's when it hurts the most

It breaks my heart each time I read the note you left for  
me  
And your picture makes me lonely as can be  
But when I see you holding somebody new  
That's when it hurts the most

Never never thought I'd miss you  
But it's heartache heartbreak my whole life through

It makes me cry each time I think of how you once were  
mine  
And I think about it darling all the time  
But when I see you kissing somebody new  
That's when it hurts the most  
That's when it hurts the most
