Shame, Shame, Shame

It may feel right this time but she is just playin you
Don't give in to her ways she'll make you come un-
glued

She may be a sexy girl, she may be so damn cute
But she is a female and your weakness eats at you

Com'on baby tell me what you want to hear
I know what you want I know what you want its clear

Shame, Shame, Shame girl
Don't you know that you're to blame girl
If everything you did reflected what you said
You wouldn't be so damn blind
You're blinded by her eyes, her lips, her body too
I know she beautiful but in the end you're gonna
choose
She is a bad girl she's not the girl next door
She will seduce you she'll make you come back for
more

Com'on baby tell me what you want to hear
I know what you want I know what you want its clear

Shame, Shame, Shame girl
Don't you know that you're to blame girl
If everything you did reflected what you said
You wouldn't be so damn blind
