Yeah!

[Instrumental]

Well she's a hard workin' mama
The girl's a blast
Workin' two jobs a week
And goin' to actin' class
She's got the magic
And she's found the groove
Sure found the way, baby
To make me move

Maybe someday, maybe someday
Someday she'll surely see
She'll finally see
I'm just tryin' to
Tryin' to get you close to me (close to me, close to me)
Tryin' to get you close to me (close to me, close to me)

She drove an eighteen wheeler
Like she's made out of steel
But she laid down and cried
When love got too real
So I slow down the message
And I speed up the pace
Said I love you, darlin'
Face to face

Maybe someday, maybe someday
Maybe someday
Someday she'll surely see
She'll surely see
I'm just tryin' to
Tryin' to get you close to me (close to me, close to me)
Tryin' to get you close to me, (close to me)

Yeah!

[Instrumental]

Someday you'll finally see

[Instrumental]

(Close to me, close to me)

(Close to me, close to me)

Oh she's a hard workin' mama
You know the girl's a blast
She works two jobs a week
And goin' to actin' class
She's found the magic
And she's got the groove
Sure found the way, darlin'
To make me move

Maybe someday, maybe someday
Someday she'll surely see
Someday she'll finally see
She'll finally see
I'm just tryin' to
Tryin' to get you close to me (close to me, close to me)
Tryin' to get you close to me (close to me, close to me)

Tryin' to get you close to me (close to me, close to me)
