Hey, can't stop thinking about you
Wondering why you're not around
Can't keep doing without you
Pack my things and leave this town

I've been thinking, hey about you
Can't keep doing without you
Getting tired, not feeling better
Ain't got time to show you
Girl, how well I know you
I guess I'll go away

Hey, hey, hey
Yeah

Can't keep waiting on you
Get to know as to what you know
Time to jump upon you
Darling what are you waiting for
Can't keep waiting on you
I'm gonna jump upon you
Getting time for revolution

Hey, ain't got time for playing
Just like I've been saying
I guess I'll go away

Ain't gonna put me through it
I don't have to live this way
You can't hold me to it
Gonna make my get away

Ain't gonna put me through it
You can't hold me to it
Can't get no satisfaction, yeah
Everything you're doing
Drive me to ruin
I guess I'll go away

Hey, hey, hey
