"Help Me Live"

Visit "[Help Me Live](#)" on MotoLyrics.com

You gotta help me darling
I can't make it all by myself
You gotta help me baby
I can't do it all by myself
If you don't help me little girl
I gotta use somebody else
You might have to curse, you have to swear
You might have to disturb
You might have to rock and roll
But you gotta help me darling
I can't make it all by myself
If you don't help me little girl
I gotta use somebody else
You might have to curse, you have to swear
You might have to disturb
You might have to rock and roll
But you gotta help me darling
I can't make it all by myself
If you don't help me little girl
I gotta use somebody else
Hey baby put on your morning gown
Woah baby put on your morning gown
I'm so sleepy little girl
But I feel like lying down
