Tomorrow was our wedding day
But with my own two eyes
Today I saw you kissing my best friend
So you can kiss tomorrow goodbye

Although you really hurt me
Although you made me cry
My love for you still lingers on
But you can kiss tomorrow goodbye, whoah

Of all the loves I ever, ever had
You know, I loved you the most
How could you wreck my life and ruin my plans
With our wedding day so close

My eyes still burn from crying
But when these teardrops dry
I'm gonna find myself another girl
Baby you can kiss, kiss tomorrow goodbye

Yeah!

[Instrumental]

Of all the loves I ever, ever had
You know, I loved you the most
Baby how could you wreck my life and ruin my plans
With our, our, our wedding day so close

My eyes still burn from crying
But when my teardrops dry
I'm gonna find myself another girl
Baby you can kiss, kiss tomorrow goodbye

Baby you can kiss, oh you can kiss tomorrow goodbye
Kiss tomorrow, kiss tomorrow... goodbye
