If the kind of love you need is something
That your man can't understand
Next time he goes out with the boys
Just call your medicine man

Hot or cold or in between
Do I have to draw a diagram
Some boys got it and some boys ain't
I am your medicine man

Hey, Lordy mama don't you suffer alone
Just call me as quick as you can
And I'll be over with the antidote baby
I'm your medicine man

No cheap prescription can clear your head
Of what your mind demands
No little white pills gonna cure your ills
Call your medicine man

Dr.Quincy's much too old
And your g.p.'s got cold hands
Kildare's through and Ben Casey too
Call your medicine man

Yeah, call the doctor!

[Instrumental]

Hey, Lordy mama don't you suffer alone
Just call me as quick as you can
And I'll be over with the antidote baby
I'm your medicine man

Dr.Quincy's much too old
And your g.p.'s got cold hands
Kildare's through and Ben Casey too
So call your medicine man

No cheap prescription can clear your head
Of what your mind demands
No little white pills gonna cure your ills

Call your medicine man

Yeah, call the doctor
I'm your medicine man...
Call me quick if you can...
