Did you ever take a look to see who is left around?
Everyone I thought was cool, is six feet under ground
They tried to get me lots of times and now they're
coming after you
I got out and I'm here to say, baby you can get out too

I'm still alive and well, still alive and well
Every now and then I know it's kind of hard to tell
But I'm still alive and well

Still alive and well, still alive and well
Every now and then I know it's kind of hard to tell
I'm still alive and well

When I think about the past it only brings me down
Lets make love in the grass while the sun is shining
down
It feels so good your long blond hair, baby when you're
way down low
Make me shake like the whole earthquake so everyone
would know

Still alive and well, I'm still alive and well
Every now and then I know it's kind of hard to tell
But I'm still alive and well

Still alive and well, still alive and well
Every now and then I know it's kind of hard to tell
But I'm still alive and well

I'm still alive and well, I'm still alive and well
Every now and then I know it's kind of hard to tell
But I'm still alive and well

Still alive and well, you know I'm still alive and well
Every now and then I know it's kind of hard to tell
But I'm still alive and well

Still alive and well, still alive and well
I'ma alive and well, I won't tell you, baby, I'm alive and
well
You know I don't mean maybe, I'm alive and well

I'm alive and well, I'm still alive and well
