Living in the present tense  
When you lose the past  
The future makes no sense

Living in the present tense  
When there's nothing to blame  
No victim of consequence  
Living in the present tense

Crawling out  
Secure and confident  
Imbued with innocence  
Ready for the world

Suddenly  
The view was more intense  
Living in a different  
Kind of world

You're living  
Living in the present tense  
When you lose the past  
The future makes no sense

Living in the present tense  
When there's nothing to blame  
No victim of consequence  
Living in the present tense

Something is said  
It made me step outside  
The moment eyes pan right  
And left around my world

Open yourself  
Up to the possibility  
Aware of some reality  
Outside your world

In a silent universe  
The moment can be so real  
You almost can't stand it

In a distant universe  
Distracted from ourselves  
You can't help but wonder

In a crowded universe  
When the talking turns to noise  
You almost start laughing

You're living  
Living in the present tense  
When you lose the past  
The future makes no sense

Living in the present tense  
When there's nothing to blame  
No victim of consequence

Living in the present tense  
When there's nothing to blame  
No victim of consequence  
Living in the present tense  
Living in the present tense
