Follow me now,
lets take a long way home,
Then start all over again,
on a brand new road.

With a wide open mind,
I got it under control.

The time is slowing me down,
colorful sound,
I can make it grow.

It's been a long time coming,
are you ready?
I've been everywhere with you man,
are you ready, are you coming?
This is the last time...

Go ahead be free, just act like me.

Out in the field,
we'll loose the sense of control.
But in the city light,
we can recognize.

With a wide open mind,
we got it under control.

The time is slowing me down,
colorful sound,
we can make it grow.

It's been a long time coming,
are you ready?
I've been everywhere with you man,
are you ready, are you coming?
This is the last time...

Go ahead be free, just act like me.
Go ahead be free, just act like me.

When you die,
you lived your delicate life,
now you breath again,
when you're among your friends,
it feels, so ready to be now. (?)

It's been a long time coming,
are you ready?
I've been everywhere with you man,
are you ready, are you coming?
This is the last time...

It's been a long time coming,
are you ready?
I've been everywhere with you man,
are you ready, are you coming?
This is the last time...

Go ahead be free, just act like me.
Go ahead be free, just act like me.

This is the last time...

I've come to my senses...
