### "For A Little While"

Visit "[For A Little While](#)" on [MotoLyrics.com](http://MotoLyrics.com)

We build upon,  
soldiers in the ground,  
for a little while,  
for a little while,  
for a little while...

You rest upon,  
an island in July...

For a little while,  
for a little while,  
for a little while...

And if I tell you this,  
will you be laughing at me now?

And if you steal a kiss,  
should I be grateful to you now?

Well, I burned my skin,  
lookin' into the sun...

Mhm... and it makes me smile,  
for a little while,  
for a little while...

Makes me feel alive,  
for a little while,  
for a little while...

I'm grinding meat,  
preparing for tonight...

Thinking 'bout the cow,  
thinking 'bout the cow,  
thinking 'bout the cow...

Go climb a tree,  
enjoy in a new high... (height?)

For a little while,

for a little while,  
for a little while...

And if I turn the time,  
back to a room that's very small...

Would you meet me there,  
would you care for me at all?

Well, I go through this,  
staring into the sun...

Mhm... and it makes me smile,  
for a little while,  
for a little while...

Makes me feel alive,  
for a little while,  
for a little while...

Oh, for a little while...

For a little while!

For a little while...

For a little while!

We build upon,  
soldiers in the ground...

For a little while,  
for a little while,  
for a little while...
