After you go, I can catch on my reading
After you go, I have lot more time sleeping
And when you go, it looks like thing's gonna be lot
easier
Life would be at ease you know
I really should be glad.

Chorus:
But I'm bluer than blue
Sadder than sad
You're the only life this empty room has ever had
Life without you is gonna be
Bluer than blue..

After you go, I have alot more room in my closet
After you go, I can stay oout long if I feel like
And when you go, I can run through half screaming
And no one can ever hear me
I really should be glad

(Repeat Chorus)

I don't have to miss no tv show
I can start my whole life over
Change the numbers on my telephone
but the night will sure be colder.

(Repeat Chorus)

Bluer than blue
Bluer than blue
Bluer than blue..
