[Intro: RZA/Bobby Digital]

Yo, yo, fuck what you think

Fuck what you think

[Chorus: RZA/Bobby Digital]

It's about what you know, so fuck what you think

Twenty-one and over to drink

Nineteen and over to fuck

Sixteen and over to pat

A twelve year old kid got bucked

[RZA/Bobby Digital]

The sweet premium classic lay your ass flat as a mattress

Smack your head off the axis, the rhyme facious

Silencer on the tech-nine shot got your pillow wet

All your bitch say was the black silhouette

of the dark ninja, Lion King of the jungle, Simba

Cut the roof to your family tree, timber

Me and Dr. Strange in the black reign smokin chimneys

Fat Cappadonna tape stuck inside my Benzi

The blue coats is comin, the red coats is comin

The fed coats is comin, the wet heads is comin

I heard to Dirt was up in the Riker's fuckin a female

CEO, Wu-Tang keep it on the D-low

Third eye is a trillion million watt gigabyte

Insight like bright, can't find this on your website

Everglow superior to your inferior material

Verbal serial murder, givin you pussy cats venereal

injections, lethal injections, ran from house

Left the dictionary, pictionary, the non-fictionary

Ruler Zig-Zag-Zig Allah, puzzle like jigsaw

Struggled for charisma, yo

[Chorus]

[Islord]

Aiyyo, rock head niggaz who grab mics for the first time

Get fronted on majorly once the God slides in on the scene, love-love in the place to be

All-American lyrics, the top choice
in this rap market from Now Y all the way to England
cuz my click be jinglin under Wu-Tang Productions
That's quick to sell a million, then bounced on tour
outta state
Rap fiends was trapped in cells like hot cakes
Faster than the rate of the Earth travel
Which one-hundred-thirty-seven and one third miles
per a hour
And peace to the God Power for never fallin for nothin
less
than a hundred grands and rap with rubberbands
placed in
golden suitcases, slitted across the table
to walk the dogs in the nine-eight, the nine-eight

[9th Prince/Madman]

Yo, I build with the great minds of Africa
RZA, Star Trek Voyager, Killah Hill side strangler
Captured you in inside thirty-six gas chambers
North American, Arabian, halftone dark Indian
9th Prince convinces his enemies to kill themselves
Like Dr. Kavorkian, travel like razor satellites
Prepared for battles, devils try to raid the castles
Got tackled by the rebels, the plate in my head is heavy
metal
Lyrical chain reaction, deadly instruments, run for
symantecs
The international civil war assassins
Geological, biochemical, camouflaged nuclear
aropostles
Sounds posible, cuz regardless visual
English grammer, mental examiner
I shock the world like the death of Princess Diana
Reverse psychology on technology, accept no
apologies
The penalty is to cut off your arms and feet
Poetry teachers are speechers seepin through the
speakers
My fans will become die hard listeners, plus ear
bleeders

[RZA/Bobby Digital]

Fuck what you think
Fuck what you think
Fuck what you think

[Chorus x2]

[Outro: RZA/Bobby Digital]

Word up, Fuck what you think

Word up, yo

beepin sound to fade
