True love takes a long tome to make  
losing it causes a whole lot of heartache.  
True love ain't easy to find.  
Sometimes you don't know you've got it  
till you leave it behind.  
There's a feeling I get when I think about you  
realize what we had was true.  
Could've saved it, but I was too blind.  
And I know I might search a lifetime through  
and never find another love like you.  
It was true love, and that's a hard love to find.  
Cause I know true love takes a long tome to make  
losing it causes a whole lot of heartache.  
True love ain't easy to find.

Sometimes you don't know you've got it  
till you leave it behind.  
Well I've known love burning hot, love turning cold  
Until I lost it, I didn't know...  
True love takes a long tome to make  
losing it causes a whole lot of heartache.  
True love ain't easy to find.  
Sometimes you don't know you've got it  
till you leave it behind.  
Sometimes you don't know you've got it  
till you leave it behind.
