How I need you, wanna see you
Day and night you make me smile
And I, I think I just wanna let you know
Like a fever you make me weaker
It's hard to fully describe
But I, I don't ever wanna let you go

I won't lie, oh I got it out for you
Don't deny, if you really feel too
Cause I can truly make you happy
On everything, I never felt this way
Do anything just to make her stay
I think I was made for you to have me

I don't know, if it's wrong
I just know, know what I want
And that's you, and you only
And it's perfect in my eyes
Cause the body plays tricks on the mind from time to time
But the heart don't ever lie

There's a moment
When you know it
You're in the right place
At the right time
And then you never wanna let it pass
Cause when you have it
Then it's magic
And it's crucial to your life
So you're confident it's gonna last

I won't lie, oh I got it out for you
Don't deny, if you really feel too
Cause I can truly make you happy
On everything, I never felt this way
Do anything just to make her stay
I think I was made for you to have me

I don't know, if it's wrong
I just know, know what I want

And that's you, and you only
And it's perfect in my eyes
Cause the body plays tricks on the mind from time to
time
But the heart don't ever lie

Now, I believe in you
So all you do is call
And whatever you ask me
I would do it gladly
Cause I, I believe in you
So I never let you fall
And I will see you and me remain strong through it all

Baby, I don't know, if it's wrong
I just know, know what I want
And that's you, and you only
And it's perfect in my eyes
Cause the body plays tricks on the mind from time to
time
But the heart will never lie
