Oohhhooohhoooo
Ohohooooohoooo

Saw a pretty girl
In her lovers arms
And it hit thenn
I'll be missing you
It's a different world
Since you've been gone
And I want you back
Cause I missin' you
Not a minute, not a hour, not a day leave
that I don't feel, like I missin you
Girl I know this is my fault
You were gone but Oooooohh

I can't live this life
Cause I'm lost without your love
And every time I try
I'm still lost without your love
As everyday goes by
I'm just lost without your love
I don't think I'll survive through the night
If I don't get you back in my life

I can never see, what you meant to me
Till it fell apart
Now I'm missin you
How Your love was pure
And your heart were sure
Tell me where you are
Cause I'm missin' you
And tell me how
Can I get back to your love
Cause I'm stumbling
That I can't pick myself up
And I can't think, sleep, be without your loveeee

It's like put myself on trial
It's like seeing my death right before my eyes
But wouldn't did to have you leave
Oooh baby, my baby, you are truly missed

I hope you'll can picture this

Cause I can't live this life
Cause I'm lost without your love
And every time I try
I'm still lost without your love
As everyday goes by
I'm just lost without your love
I don't think I'll survive through the night
If I don't get you back in my life

This is ain't fresh
Cant you see

Say goodbye
Comeback please, I'll do whatever I gotta do to prove to
you that I truthest topper now
Whoooooohooo

You need to come back baby
Come back right now

Cause I can't live this live
Cause I'm lost without your love
And every time I try
I'm still lost without your love
As everyday goes by
I'm just lost without your love
I don't think I'll survive through the night
If I don't get you back in my life
Need you in my life right now
I don't think I'll survive through the night
Said I won't survive baby
If I don't get you back in my life
