Love . . . Love

Night and day I need you
I'm so glad to see you
Every moment I get free
I just wanna touch you
Tie you down and love you
Show you what you mean to me

You mean the difference
What I've been missin'
I want you so damn bad
Tell me your feelin'
What I've been feelin'
And if so I wanna know can you

[Chorus:]

Give It Up (give it up)
Let Me Know (let me know)
What you want (what you want)
Could it be my love
Cause I need (cause I need)
Need you so (need you so)
Baby you (baby you)
Baby you (baby you)
You got my love
Just ask and baby you can have it
You got my love
So don't fight it, baby you might like it

You can have whatever
Ask and I'll make it
I've been for you every time
Never felt this way again
But all that I'm givin' seems only right

You mean the difference
What I've been missin'
I want you so damn bad
Tell me your feelin'
What I've been feelin'
And if so I wanna know can you

[Chorus:]

Give It Up (give it up)
Let Me Know (let me know)
What you want (what you want)
Could it be my love
Cause I need (cause I need)
Need you so (need you so)
Baby you (baby you)
Baby you (baby you)
You got my love
Just ask and baby you can have it
You got my love
So don't fight it, baby you might like it

I won't deny one bit
Baby I think you could be the missin' link
To a heart that's been waitin' to please you
Baby don't let me go home tonight
Not without you

[Chorus:]

Give It Up (give it up)
Let Me Know (let me know)
What you want (what you want)
Could it be my love
Cause I need (cause I need)
Need you so (need you so)
Baby you (baby you)
Baby you (baby you)
You got my love
Just ask and baby you can have it
You got my love
So don't fight it, baby you might like it
You got my love
Just ask and baby you can have it
You got my love
So don't fight it, baby you might like it

Love . . . Love. . . Love
