Whoa (6x)

[Verse 1]

I can see beneath that jaded cover  
That you're a girl who'll stop for nothing  
So to you I offer all my heart  
Life is confusing, girl it's true  
And I'm not perfect, but I I do  
See us as more than a dream  
I'm guessing you feel like me, so

[Chorus]

Baby could you stay one time  
(One time for love)  
You think about me  
Don't want to be without me  
(And I am all you'll ever need are more)  
And since I'm in your bed right now, then  
(Oh, Oh)  
Baby can I stay one time  
(One time for love)  
So I can feel you and be near you  
And if you want my touch, then  
Baby, can you stay one time for love

[One Time For Love Lyrics On ]

[Verse 2]

See I'm not a foolish man  
I can't feel something and hold it in  
So don't you be a foolish girl  
And deny yourself a chance  
We both know you're worth  
If there is a way we'll find  
The path that makes love alright  
But for now let me meet your needs  
And if you feel like me, then

[Chorus]

Baby could you stay one time  
(One time for love)  
You think about me  
Don't want to be without me  
(And I am all you'll ever need are more)  
And since I'm in your bed right now, then  
(Oh, Oh)  
Baby can I stay one time  
(One time for love)  
So I can feel you and be near you  
And if you want my touch  
Baby, can you stay one time for love

[Instrumental]

[Outro]

One time for love  
And I am all you'll ever need and more  
(oh, oh)  
One time for love  
Baby, can you stay one time for love  
(Repeat, fade out)
