My soul has never been so moved
I know this must be love
I look at you and see
Everything I ever wanted
My hope is you feel exactly what I feel for you
And I dream that the two of us forever be true

Tonight tonight take me I want it
There is no place on Earth that I rather be
There by your side my one and only if you were my only
option
I still want you for me
Cause baby the way you love me, thats what Im talking
about
Every day you love me
You make my world go round
And I can't explain how you make me go crazy baby
But you do, you do, you do
I say baby you do, you do, you do

There ain't nobody better
There ain't nobody messing with you
When it comes to making me feel needed all of the
time
There ain't nobody better
There is no one else I want to call my own
A love like this cannot be wrong

Tonight tonight take me I want it
There is no place on Earth that I rather be
There by your side my one and only if you were my only
option
I still want you for me
Cause baby the way you love me, thats what Im talking
about
Every day you love me
You make my world go round
And I can't explain how you make me go crazy baby
But you do, you do, you do
I say baby you do, you do, you do

I don't need another look

There's nothing else to see
No one else can do me good like the way you do me
Im not intrested in others....
I just wanna be with you forever

oooh oooh
oooooh
Cause baby the way you love me, thats what Im talking
about
Every day you love me
You make my world go round
And I can't explain how you make me go crazy baby
But you do, you do, you do
I say baby you do, you do, you dooo
