Some diss it some doubt it I can't live without
I'm talking about the things I feel and who I feel them
for
Affection devotion confidence from no when
Not the one I love feels the exact thing and so much
more

See I'm there for you I care for you
I care for you I'm faithful without failing
That's all I know and that's all I want to be
And your there for me you care for me
Your hand is more than helping
It's the rock that I reach for and you would never need
more

{Chorus}
So when they ask you about our love tell them it's
timeless it's timeless
And when they ask why I won't give up tell them I like it I
like it
Cause when you feel it I can feel it your lover knows it
cause you show it
I really feel it aint no place like home
Baby its timeless it's timeless

Now baby I won't lie if you don't lie
Matter fact I take it back let me rephrase baby
I won't lie even if you lie
Never thought cause that aint right
And I know the haters like to front
They can say whatever they give us enough I give us
forever
They don't know committed well here is my definition

See I'm there for you I care for you
I care for you I'm faithful without failing
That's all I know oh baby its all that I want to be
And your there for me you care for me
Your hand is more than helping
It's the rock that I reach for and you would never need
more

{Chorus}

So when they ask you about our love tell them it's
timeless it's timeless
And when they ask why I won't give up tell them I like it I
like it
Cause when you feel it I can feel it your lover knows it
cause you show it
I really feel it aint no place like home
Baby its timeless it's timeless

Please forgive me im just stinnggy i admit it
Im sick with this thing called love
And i feel it for you I feel it for you
Thats on everything i cherish your my blessing i wont
let you go no no no no

{Chorus}

So when they ask you about our love tell them it's
timeless it's timeless
And when they ask why I won't give up tell them I like it I
like it
Cause when you feel it I can feel it your lover knows it
cause you show it
I really feel it aint no place like home
Baby its timeless it's timeless

{Chorus}

So when they ask you about our love tell them it's
timeless it's timeless
And when they ask why I won't give up tell them I like it I
like it
Cause when you feel it I can feel it your lover knows it
cause you show it
I really feel it aint no place like home
Baby its timeless it's timeless
