"Too Late"

Visit "[Too Late](#)" on MotoLyrics.com

Love can be, a pretty thing
And it can rearrange your heart
If you choose it, yeah
But trust can be, your enemy
And it will tell you what â€¦
When you're loosing, whao
When you spend so many nights alone
You face the bitter truth
Don't see myself in â€¦ hour
Times I needed you
Now I've changed, it's too late
Already worked it out
I really don't need you now
Said I've changed, it's too late
Already worked it out
I really don't need you now
When you find, someone you like
And you know they'll be around
It can make you, yeah
But when they break, the promises
Confusion gives away the doubt
And it breaks you, whoa
When you spend so many nights alone
You face the bitter truth
Don't see myself in â€¦ hour
Times I needed you
Now I've changed, it's too late
Already worked it out
I really don't need you now
Said I've changed, it's too late
Already worked it out
I really don't need you now X 2
