Ooh Oh You got it babe
Ooh oh

1st VERSE:

It's a fact that
You and me together is a different kind of level
And there ain't too many people that have that
I like to think that you and I are one of a kind
And everyday I pray you'll see
Without you there is no me
And every night you're by my side
Is a night that I realize that

What you like, what you like
And I got it babe
What I like, what I like
And you got it babe
The type of thing'll last forever
And that's why we'll always be together
because

CHORUS:

Everytime I touch you baby
All I wanna do is love you baby
And everytime I see you baby
My only mission is to please you baby
You can have my time, ooh
You can have my heart, ah
You can have my body, ooh
You can have it all, oh
What you like, what you like
And I got it babe
My life, my life
You got it babe

2nd VERSE:

I will show you
You can search the world for a hundred million girls
And none of them will love you like I do, I do
I like to think that my love is one of a kind
And no doubt that I agree
You mean the same to me and

I really do adore
What you give and so much more 'cause

What you like, what you like
And I got it babe
What I like, what I like
And you got it babe
The type of thing I'll last forever
And that's why we'll always be together
because

CHORUS:

Everytime I touch you baby
All I wanna do is love you baby
And everytime I see you baby
My only mission is to please you baby
You can have my time, ooh
You can have my heart, ah
You can have my body, ooh
You can have it all, oh
What you like, what you like
And I got it babe
My life, My life
You got it babe

Until the end of time
I'm yours and you are mine
So let them test our love
They'll never break it up
I trust you everyday
That's why you'll do the same
There's no big mystery
We were meant to be and so

CHORUS: (2x)

Everytime I touch you baby
All I wanna do is love you baby
And everytime I see you baby
My only mission is to please you baby
You can have my time, ooh
You can have my heart, ah
You can have my body, ooh
You can have it all, oh
What you like, what you like
And I got it babe
My life, my life
You got it babe

You got it babe
