Hey you didn't  
I told you to stay away from me  
I never want to see you because you hurt real bad  
And I will never forget it you told me that you would  
Take care of me but you didn't you just lied.  
While I was waiting for you, you were with another  
Bitch but you told me you were with your family

Fuck your lies,  
Fuck them all because they don't mean nothing to me  
I trusted you but you lied more  
And more everytime so fuck you.

I knew you were lying to me but I didn't say  
Nothing until I saw that it was true I tried to take  
You away from that bitch but I couldn't I gave you  
All of my love and you used it like trash and now  
I wan't to tell you:

Fuck your lies. fuck them all because they don't  
Mean nothing to me I trusted you but you lied more  
And more everytime so fuck you.
