You're in my headlight
You're in my
I'm a 1964 pink Cadillac baby
... sport with them dubs like a... daddy
You like what's slow, but we'll let you know
When we hit that diamond lane we whip them other
hoes yo

You've got, what I need
And I'm coming for you
Dipping through the streets like I'm hunting for you
Red light turns to green, there you are, there you are,
there you are

This time I got you in my headlight,
Got you where I want you know you know you can't hide
Hold it freeze, yeah, that's right you're all mine, all
mine
All night, in my headlight, headlight, oh

I got that body like a black slick Bugatti baby
She like a low riding show... lady
It was bread and does like we paying our toes
I'ma creep up on you take it then I hit the road yo

You've got, what I need
And I'm coming for you
Dipping through the streets like I'm hunting for you
Red lights turn to green, there you are, there you are,
there you are

This time I got you in my headlight,
Got you where I want you know you know you can't hide
Hold it freeze, yeah, that's right you're all mine, all
mine
All night, in my headlight, headlight, oh
