One two three four
Huh hhhhmmmmm ohhh
I think I could like you
I Already do
Feelings can grow but
They can go away too
You're taking my hand
Looking into my eyes
Don't be in a rush to get me tonight
I feel something happening
Could this be a spark?
To satisfy me baby
Got to satisfy my heart

(Chorus)

Do you know how to touch a girl?
If you want me so much
First I have to know
Are you thoughtful and kind?
Do you care what's on my mind?
Or am I just for show?
You'll go far in this world
If you know how to touch a girl
(do you know how to touch, know how to touch a girl x2)

I think I could like you
But I keep holding back
'Cause I can't seem to tell
If you're fiction or fact
Show me you can laugh
Show me you can cry
Show me who you really are
Deep down inside
Do you feel something happening
Could this be for real?
I don't know right now
But tonight will reveal

(Chorus)

Do you know how to touch a girl?
If you want me so much
First I have to know

Are you thoughtful and kind?
Do you care what's on my mind?
Or am I just for show?
You'll go far in this world
If you know how to touch a girl
(Do you know how to touch, know how to touch a girl x2)

Bring me some flowers
Conversations for hours
To see if we really connect
And baby if we do ohhhh
I'll be giving all my love to you
Ohhhhhhhhhhhhhhhhhhhhhhh

(Chorus)

Do you know how to touch a girl?
If you want me so much
First I have to know
Are you thoughtful and kind?
Do you care what's on my mind?
Or am I just for show?
You'll go far in this world
If you know how to touch a girl
(do you know how to touch, know how to touch a girl x2)

You'll go far in this world
If you know how to touch a girl
