imma be ? with an attitude
Sometimes i re-build from what i'm supposed to do
but then your love conquered my heart
(and i) i know i had to have you all of the time

see i can go for awhile now
there's nothing i can't take
?????????
without you
i'm running out of energy
i want you here with me
and baby without you
i'm stalling on this road alone
when i'm gone too long
i'm running on empty without you
i'm running right back, because i'm running on me
and yes i know it's a fact
baby i'm running on empty without you

??????? i'm telling you
boy in your eyes i saw the truth
cause it was just so right
and now that i got you
i know what was missing in my life

see i can go for awhile now
there's nothing i can't take
?????????
without you
i'm running out of energy
i want you here with me
and baby without you
i'm stalling on this road alone
when i'm gone too long
i'm running on empty without you
i'm running right back, because i'm running on me
and yes i know it's a fact
baby i'm running on empty without you

it's uncontrollable
i get emotional

what more can i say
like a coffee with cream you compliment me
and i never wanna be too far away

without you
i'm running out of energy
i want you here with me
and baby without you
i'm stalling on this road alone
when i'm gone too long
i'm running on empty without you
i'm running right back, because i'm running on me
and yes i know it's a fact
baby i'm running on empty

without you
i'm running out of energy
i want you here with me
and baby without you
i'm stalling on this road alone
when i'm gone too long
i'm running on empty without you
i'm running right back, because i'm running on me
and yes i know it's a fact
baby i'm running on empty without you
