"Something In The Water"

What am I doing'
Watchin' all his movements
Pullin' apart everything that he's doing
What is the reason at switchin' up free stuff

Like I'm held up by the police
I need freedom

And I'm just not myself
Need control, cause I just don't have any left
Only way to explain it
The water is tainted

There's Something In The Water
Somebody help me out
Cause there's something in my system
The doctors haven't found
But I know it's there
Damn it I know it's there
I really want him
It's gettin' stronger
Feel like I'm drowning
Don't drink the water
Just put your glasses down
Cause there's something in the water

This isn't like me
I really don't like this
Somebody must've taken my Fiji and spiked it
Fish outta water
I'm pushin' ya farther
He calls, I act like I don't wanna be bothered

But I can't help myself
I'm in deep, feel like I'm runnin' out of breath
Only way to explain it
The water is tainted

There's something in the water
Somebody help me out

'Cause there's something in my system
The doctors haven't found
But I know it's there
Damn it I know it's there
I really want him
It's gettin' stronger
Feels like I'm drownin'
Don't drink the water
Just put your glasses down
'Cause there's something in the water

There's something in the water
Somebody help me out
'Cause there's something in my system
The doctors haven't found
But I know it's there
Damn it I know it's there
I really want him
It's gettin' stronger
Feelin' like I'm drownin'
Don't drink the water
Just put your glasses down
'Cause there's something in the water
