It's a sunny day when you say you love me  
Even when it rains from the sky,  
You and I  
Go together.  
When I look at you and I know you love me,  
Even this old life can't bring me down  
Feeling like a clown  
On a day dream  
(Chorus)  
Sunny Day (clap, clap)  
Sunny Day (clap, clap)  
Sunny Day (clap, clap)  
Sunny Day  
Wooh!  
(Guitar Solo)  
(Chorus)  
Rainy Days that seemed so far away  
When you can't wait to find a brighter day  
You've lived your life with nothing left to say  
Now you can't wait for a ...  
(Chorus)  
It's a sunny day when love is around me  
You can see it shine from the sky  
You and I  
Belong together  
(Chorus)  
Rainy days that seemed so far away  
When you can't wait to find a brighter day  
You live your life with nothing else to say  
Now you can't wait for a ...  
(Chorus)  
(Chorus)
