The snow is fallin hard
The thoughts are in our hearts
You can feel the spirit beatin
Memories comin back
Moments kept in tack
The silver bell this day is ringing

God is watching from the heaven
So better be behave (and better be behave)
It's never been too late to celebrate
The wonders of the yultide season

Christmas fever
Cmon now it's now or never
Christmas fever
Cmon now let's rock together

The families here today
Are comin out to pray
To glorify to ones whose savin

If you look upon the stars
And let to pass the hours
You would feel the love he has given

God is watching from the heaven
So better be behave (and better be behave)
It's never been too late to celebrate
The wonders of the yultide season

Christmas fever
Cmon now it's now or never
Christmas fever
Cmon now let's rock together

Christmas fever
Cmon now it's now or never
Christmas fever
Cmon now let's rock together
