All Gods children shall be free
All Gods people shine a light on me
All Gods children shall be free
All Gods people shine a light on me
I can play with the game call it purification
We can dance to the fantasy mystification
You can make it by living within the vicinity
I be ready to kiss you and love you infinity
dancing in gravity
All Gods children shall be free
All Gods people shine a light on me
We were ready believing the heavenly choir
And the jollyfication is getting us higher and higher
Oh! the joy would be climbing and singing the stars at
night
We be touching the strategy getting it just right
Better get out and work out a way to the energy
They be calling with musical high choreography
Just to dance with the thought inconceivable beauty
To be ready to kiss you and love you infinity
dancing in gravity
dancing in gravity
All Gods children shall be free
All Gods people shine a light on me
All Gods children shall be free
All Gods people shine a light on me
Like a song that has waited so long for it's freedom
I be ready to run with you true inspiration
Have you heard of the people the Magical Trinity
I am ready to kiss you and love you infinity
dancing in gravity
dancing in gravity
All Gods children shall be free
All Gods people shine a light on me
All Gods children shall be free
All Gods people shine a light on me
