"For You"

Tell me that I would sing
Soft as a song would bring
All of a union together in my life
Tell me I'm everyone
As where my heart is searching
Now is finally resting again
Oh, for the perfect sound
Jon, Jon, for my life
As it's something that I must
Explain this and all to you
Haven't you guessed it
Haven't you guessed it at all
This song is for you
This song is for you
Oh, for the perfect sound
Jah, Jah, for my life
As it's something that I must
Explain this and all to you
Haven't you guessed it
Haven't you guessed it at all
This song is for you
This song is for you
