"Love Is"

I will be here with you
To find love is
For your love
I'll carry on, to know
That love, it is
Love is, it is, love is, it is
All now is all
The sound is
So in love this way
Together, once more together
Although the future, seems so uncertain
Take heart my good friend,
Your time is waiting
No thoughts of sadness

All thoughts need someone, too.
Of all the feelings
There's one that matters
The gift of loving
The gift of love is calling you
O heart of mine be true, be true,
I know we're ready, like ships asailing
Let all nights be like this
Forever I could hold you-come to me
"Then we come to love."
