Demande-mot de tout changer
Car dans mon coeur, l'air que je respire
Attise la flamme de mon desir
Rien que ton nom me met en feu
I need to know if I'm secure
As all my plans call from the dark
And need for light and I
So young to know my life
We sepak of love
I never felt as I do with you
Such as the mood
My feet don't even touch the ground
Then all at once
As one and one with love
I only care
You're never far from me
To be my friend
All my dreams begin with you
To be my guide
Each breathing moment
I need the spark
Each singing flame
I need the soul
Each whispered sigh
We've walked the earth
Each song we sing
We've climbed the stars
To fly to the sun
Sweet angel, did i have to see for myself?
Your eyes are my eyes that spin me round and round
All love is the colour of the spiritual ground
We've walked, yes we've walked by his side
As all is one, so this we are
Holding the flower, being the star
You left so young
Tu es douceur
I am alone
L'amour c'est toi
But here you'll stay
Ma vie c'est toi
Not near, not far
Mon ame c'est toi

You've been my life
Mon coeur c'est toi
Tonight I'm yours
For evermore
A tout jamais!
