Looked into the mirror  
Much to my surprise  
There in front of me  
Right before my eyes  
Sentinel Being  
Luminous and gold  
These the words he said:

"Everybody looking  
Everybody see  
Everybody waiting  
To be free"

Time has come  
Time to get ready  
Time for Love

Looked into the future  
Everything so clear  
Everything so beautiful  
Coming near

Oh - the magic  
Oh - the love  
Oh - the wonderful

Everybody looking  
Everybody can see  
Everybody waiting  
To be free

Time has come  
Time to get ready  
Time for love

I won't sing until I sing with you  
I won't love again until I love with you  
I won't dance until I dance with you  
I won't live again until I live with you,  
my love, my love, my love

She came into my life  
Set my spirit free  
Now I feel so good  
You and me

Oh - the magic  
Oh - the love  
Oh - the wonderful

Everybody watching  
Everybody can see  
Everybody waiting  
To be free

Time has come  
Time to get ready  
Time for Love

I won't sing until I sing with you  
I won't love again until I love with you,  
my love, my love, my love
