Ah, see we both sing, get along
Some of us set this treaty
Because I know
Set it to really purify

See the more the reasoning
As the stars, they sit at night
We can never really guess
Unless we ask like a mission

And it touches you
Like a measure do
It's a real life
And it gets us by

Some Gemini told us of a reason
We had something of a catapult force
I'm steering out another vision
Top, very top, top, very top, top of the world
We'll see what it's like clearer

Just around the corner we heard it
Just around, the boat should be there
It came alive so by the fire
For the very first time, so heavy

First energy reach first vision
First energy caught in the light
First energy bringing the night

I'm a river, I love you
Night
I'm a river, I love you

Watching like a tiger
Mystic like a unicorn
Water, see the great whale
Skyward, are you listening?

Do shine, it's a gift you're reaching
Day to day, you touch me
Like a vision, we fly to the sky

For the very first time

First energy reach first vision
First energy caught in the light
First energy reach first vision
First energy bringing the night

I'm a river, I love you
Night
I'm a river, I love you
Night

I'm a river, I love you
I'm a river, I love you
I'm a river, I love you
I'm a river, I love you

Some Gemini told us of a reason
We had something of a catapult force
I'm steering out another vision
Top, very top, top, very top, top of the world
We'll see what it's like clearer

I'm a rhythm, I love you
I'm a rhythm, I love you
I'm a rhythm, I love you
