Saying how I feel so deep inside (now girl)  
You're something special, don't you know  
Treasure it's mystery I find (now baby)  
Girl for now we can take it slow

In the air outside I feel you  
And you know just where you're goin'  
Girl I need to have you right here next to me  
If you know just what to do  
Then baby come I can show you  
It's a different way with me

Chorus:  
Midnight  
Fireside  
Blazing bright  
This candle's burning 4 u  
Moonlight  
It's late at night  
It's cold outside  
This candle's burning 4 u

Saying how I feel deep inside  
We have something gentle  
Girl you know  
Measure up the distance  
Can we find (out baby)  
Just how far this thing will go

Oh girl, it's like a natural high  
I got a love I can't be denied  
Hey girl, just give my love a try  
And I won't let you down  
(chorus)
