"Moon Is A Magnet"

The moon is a magnet
Everyone's at it
Everyone's had it
Love is a sadness
Love is a madness
We are the addicts

What are we if we're not in love?
What are we if we're not in love?
These are the cages
A kiss is contagious
It will betray us all
A kiss will betray us all

Somebody told me
That everyone's phony
'Til somebody's lonely
I hope that you're lonely
I hope that you're only
Waiting to phone me

What are we if we're not alone?
What are we if we're not alone?
These are the cages
A kiss is contagious
It will betray us all
A kiss will betray us all

The moon is a magnet
Everyone's at it
Everyone's had it
