Just imagine what it feels like
Living in the spotlight
Picking up a date
When the party is oscar-night
Jump into the limo
Switch it on to lino
To see how you where doing last night

It's a magical feeling
The way that they're living
But it's not what I need
Cause if you can't sit down in a rastaurant
And baby you can't walk the streets

Are you happy with your life
How you're living your life
Doesn't make you feel alright
Does it make you feel alive

Everybody wanna be a popstar
Everybody wana drive a fast car
I don't really care about what you are
I just wanna be with you

Anybody here could be a popstar
Anybody here could drive a fast car
But anybody couldn't be who you are
I just wanna be with you

Sitting in the same place
For a 100 days
I guess that you can get famous
In a million ways
They can put you on an island
Until you're buck-whiling
And you don't recognize your own face

Boy I guess that it's given
The way that we're heading
It ain't over yet
But baby how much can you strip down

How naked can you get

If you're happy with your life
Keep on living your life
If it makes you feel alright
If it makes you feel alive

Everybody wanna be a popstar
Everybody wanna drive a fast car
I don't really care about what you are
I just wanna be with you

Anybody here could be a popstar
Anybody here could drive a fast car
But anybody couldn't be who you are
I just wanna be with you

Are you happy with your life
how you're living your life
Does it makes you feel alright
Does it make you feel alive

Anybody here could be a popstar
Everybody wanna drive a fast car
I don't really care about what you are
I just wanna be with you

Everybody wanna be a popstar
Everybody wanna drive a fast car
I don't really care about what you are
I just wanna be with you

Anybody here could be a popstar
Anybody here could drive a fast car
But anybody couldn't be who you are
I just wanna be with you
