White witch fever, the only way you know  
Night time creeper, need somewhere to go  
Schizoid, paranoia running through your mind  
Everything's is closing in, you're running out of time

Gotta push it to the Limit  
Gotta push it to the Limit  
Gotta push it to the Limit  
Gotta push it to the Limit

Psycho liar, do anything for cash  
You'd cut your grandma to make this feeling last  
No sense of reason, the ecstasy you chase  
Every second bringin you closer to your grave

Gotta push it to the Limit  
Gotta push it to the Limit  
Gotta push it to the Limit  
Gotta push it to the Limit
