"No More Saturday Nights"

Firestorms now fill the sky
The light of day dies into night
World approaching bitter end
All life stops, then starts again

Nowhere to go
Nowhere at all

No more Saturday nights
No more days of our lives
No Saturday nights
No more, no more

Mass confusion hear to plea
The end of all humanity
Armageddon's finally here
Now our fates becoming clear

Nowhere to run
The end has begun

No more Saturday nights
No more days of our lives
No Saturday nights
No more, no more
