I found all the lies
I found all the times that she cried
I searched my soul and the back of my mind
But I can't find the words that told her goodbye
I found all the crime
Found bits and pieces of love thrown aside
I've been down the road and I've been low and high
But I can't find the words that told her goodbye
And I can find the rain
When I come in out of the pain
I can find the time to lose my mind
But I can't find the words that told her goodbye

SOLO

And I can find the rain
When I come in out of the pain
I can find the time to lose my mind
But I can't find the words that told her goodbye
I found new ways to cry
I found the future that I left behind
I've seen the light but I must be blind
Cause I can't find the words
