written by John Randall / Billy Lawson
Jon Randall - vocals/acoustic guitar
Lorrie Morgan - harmony
From John Randall "Cold Coffee Morning"

I use to think about the good old times
I use to go there in my mind
But the tears start to fall
So I don't go there anymore

I use to dream about your touch
But now I don't sleep that much
I found shelter from the storm
So I don't go there anymore

I keep my distance from your memory
Lord it came close to killing me
I been out and down that road before
So I don't go there any more

I use to take your picture out
But your smile would bring me down
Now it's locked up in a drawer
So I don't go there anymore

I keep my distance from your memory
Lord it came close to killing me
I been out and down that road before
So I don't go there any more
So I don't go there any more
